

Chuck Love teams up with the leading lady of Dance Music, **Colette**, to deliver his first release, **UR EVERYTHING**, on his new label, **LOVE NETWORK**. With remixes by Chuck as well as Santiago & Bushido, the package offers something for any lover of electronic music.

For the old school House Music Fans, Chuck offers up his **Main Mix** (along with a **Radio Edit**) full of signature Chuck Love melodies layered with Colette's signature, angelic lyrics. The **Love Network Rework** offers a 'rocked out/pedal to the metal' version of the track, complete with live instruments and a unique vision of what the original track could have been (stuck in a snow storm in June in Minneapolis). For the Tech House lovers, **Santiago & Bushido's Rubdown** is a beater at its finest; white light, white heat, designed to melt the audience with a **Rubdown Edit** with the same flavor and a little less vocal. Lastly, for those Fans who appreciate a more stripped down, hypnotic beat - the **Hybrid Dub**; guaranteed to work the dancefloor into a frenzy.

**- The Bulgarian**

"Love the different styles on the release. The S&B mixes hit right home for me. That sinister bassline and ghostly vocals work perfectly together. Great piece of work! Will definitely play this out! Being the old school head that I am I like the original versions as well. Classic house flavor. Chicago and San Francisco come to mind. Colette's vocals are really nice and soothing. I was pleasantly surprised by the Love Network Rework. The "metal" edge works and would work on any alternate rock station for sure. Needs a video to go with it. Nice job!"
